

Options for Downloading MARC Records from NHU-PAC

NHAIS libraries who wish to use NHU-PAC as a source of MARC records for their local systems may do so in any of the ways outlined here.

Through your local system via Z39.50

You can configure the Z39.50 client of your local system to search NHU-PAC. Only NHAIS member libraries may download records from NHU-PAC. These are the credentials you will need to configure:

SERVER ADDRESS (or HOST or URL): nhais-service.auto-graphics.com

(if you need a shorter address you can use 18.221.221.248)

PORT: 2010

DATABASE ID (or DATABASE NAME): nhais

SYNTAX (or FORMAT): MARC21/USMARC

USERNAME: nhais_ill

PASSWORD: Call the NHAIS Help Desk at 603-271-2141 during business hours to get the password.

Through the NHAIS ILL System in Batches

Libraries with credentials to use the NHAIS ILL System can search for the records they want and save them to “My List” or to the “Download Cart” and then save the set of records as a file which can then be loaded into their local system. “My List” allows multiple separate lists to be created by staff users within a library. Each library has ONE download cart which is accessible to anyone with a staff login for that library. If you have multiple staff using the system to download records you will want to use “My List” to keep different batches of records separate.

The screenshot shows the NHAIS ILL System interface. The top navigation bar includes 'nhais Training - Lilac Public' and 'General Keyword'. Below the navigation bar, there are links for 'Staff Dashboard', 'Search History', 'Help!', 'ILL Info', 'Cataloging Info', and 'Cool St'. The main content area displays search results for 'Adams, Douglas, The Hitchhiker's...'. The record is identified as 'Format: Book' and 'Found In: Nashua - Nashu...'. A book cover image is shown. On the left side of the record display, there are several action links: 'Request this Item', 'Add to Your List', 'Multi Copy', 'Email this Item', 'Print This Item', 'Download Record', 'Add to Download Cart', 'Copy Cataloging', and 'Edit Bib Record'. On the right side, there is a 'Leader' section with a table of MARC record fields:

Leader : 00207cam a2200349 i 4500	
001	ocm06251440
003	OCoLC
005	20030723092041.0

650	* 0 a Dent, Arthur (Fictitious character
655	* 7 a Humorous fiction.

Through the NHAIS ILL System One Record at a Time

Libraries with credentials to use the NHAIS ILL System can search for the records they want and save an individual MARC record using the “Download Record” link from the Full Record Display page.
